Rabbit Anti-IgG Isotype Control APC conjugated Polyclonal Antibody

Catalog No: tcna1apc

Available Sizes

Size: 25ug

Size: 100ug

Specifications

Application:
FACS, IHC, IF

Host Species:
Rabbit

Immunogen / Amino acids:
This is purified naive rabbit sera and as such there was no immunogen.

Conjugation:
APC

Clonality:
Polyclonal

Isotype:
Rabbit IgG

Form:
Liquid

Storage Buffer:
0.5 mg/ml in 1X PBS with 0.05% sodium azide

Concentration:
0.5 mg/ml

Copyright 2021 Taiclone Biotech Corp.

Recommended Dilution:

FACS: assay dependent

IHC: assay dependent

IF: assay dependentGenerally to be used at the same concentration as the sample being controlled for.

Storage Instruction:

Store the Rabbit IgG isotype control antibody at 4oC. Do not freeze; protect from light.

SwissProt:

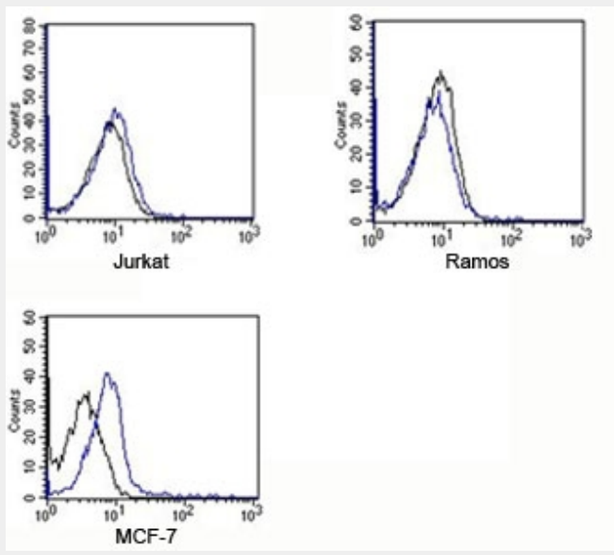
Not Applicable

References

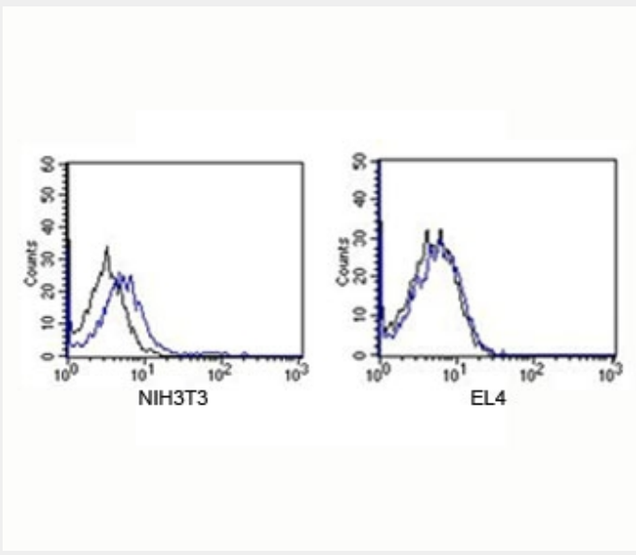
Protein A Affinity Chromatography

Product Description

Isotype control antibodies are negative controls used to measure non-specific binding or background levels of a primary antibody in different cell types. They are not specific to any target in a cell, yet retain all non-specific characteristics of the antibodies they control.



FACS testing of Rabbit IgG isotype control antibody on human samples. Black=cells alone, blue= isotype control antibody



FACS testing of Rabbit IgG isotype control antibody on mouse samples. Black=cells alone, blue= isotype control antibody
