

Eukaryotic Interferon Gamma (IFN γ)

Catalog No: tcup8414

Available Sizes

Size: 10ug

Size: 50ug

Size: 200ug

Specifications

Application:

Positive Control; Immunogen; SDS-PAGE; WB.

Species:

Rattus norvegicus (Rat)

Source:

293F cell

Purity / Grade:

> 97%

Amino Acids:

Gln23~Cys156

SwissProt:

P01581

Predicted Molecular Weight:

17.1kDa

Observed Molecular Weight:

19kDa

Tags:

N-terminal His Tag
