

Active Tumor Necrosis Factor Related Apoptosis Inducing Ligand (TRAIL)

Catalog No: tcup9108

Available Sizes

Size: 10ug

Size: 50ug

Size: 200ug

Specifications

Application:

Cell culture; Activity Assays.

Species:

Homo sapiens (Human)

Source:

-

Purity / Grade:

> 95%

Amino Acids:

Val114~Gly281

SwissProt:

Q6IBA9

Predicted Molecular Weight:

19.6kDa

Observed Molecular Weight:

19kDa

Tags:

N-terminal His Tag

Product Description

-

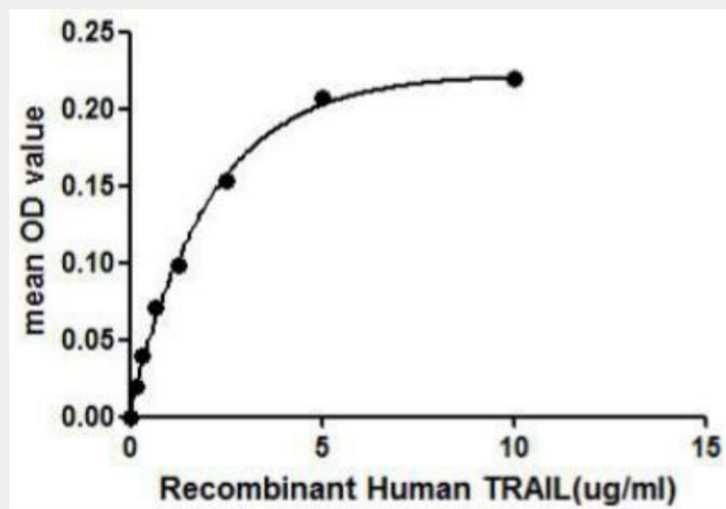

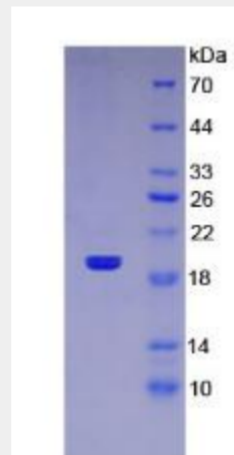

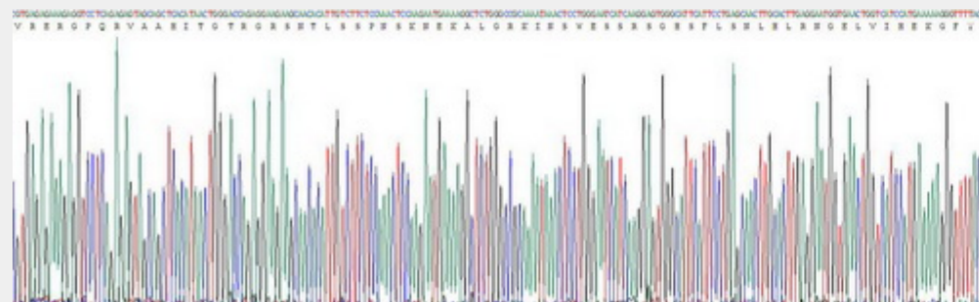

Figure 1. The binding activity of TRAIL with TNFRSF10B
