

Active Janus Kinase 2 (JAK2)

Catalog No: tcup9119

Available Sizes

Size: 10ug

Size: 50ug

Size: 200ug

Specifications

Application:

Cell culture; Activity Assays.

Species:

Homo sapiens (Human)

Source:

-

Purity / Grade:

> 90%

Amino Acids:

Asn508~Ala800

SwissProt:

O60674

Predicted Molecular Weight:

34.9kDa

Observed Molecular Weight:

35kDa

Tags:

N-terminal His Tag

Product Description

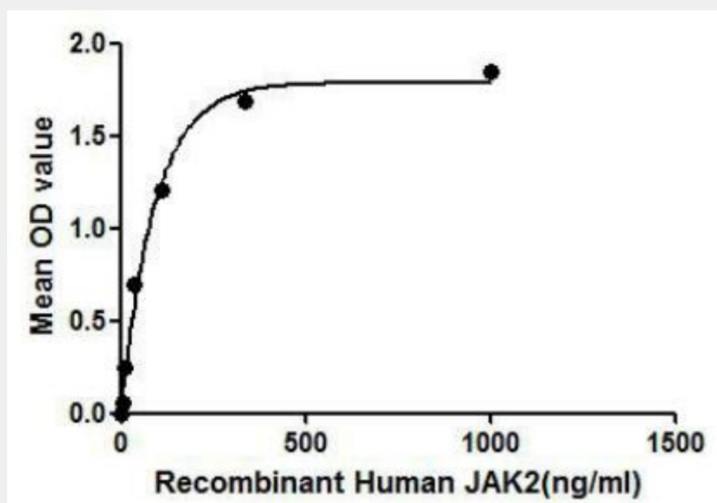

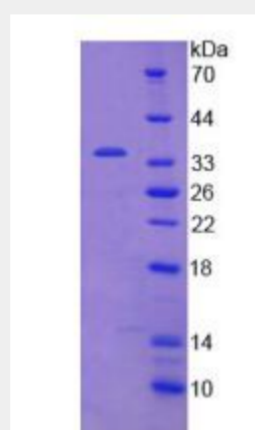

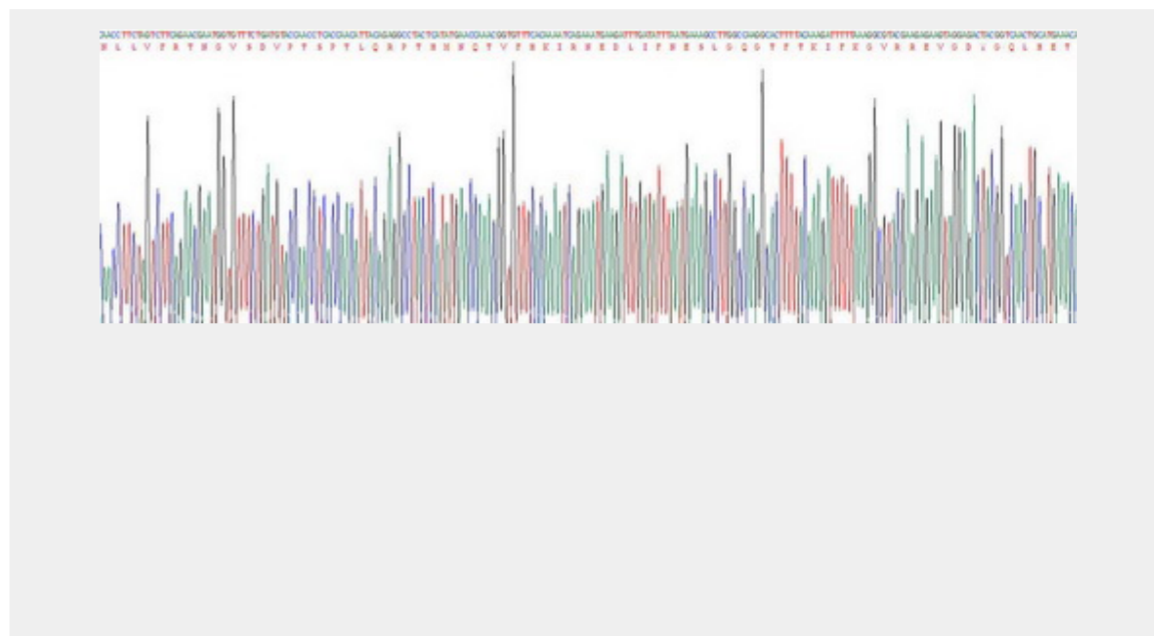

Figure 1. The binding activity of JAK2 with EPOR.
