

Active Interleukin 11 (IL11)

Catalog No: **tcup9169**

Available Sizes

Size: 10ug

Size: 50ug

Size: 200ug

Specifications

Application:

Cell culture; Activity Assays.

Species:

Homo sapiens (Human)

Source:

E. coli

Purity / Grade:

> 90%

Amino Acids:

Pro22~Leu199

SwissProt:

P20809

Predicted Molecular Weight:

25.4kDa

Observed Molecular Weight:

27kDa

Tags:

N-terminal His Tag

Product Description

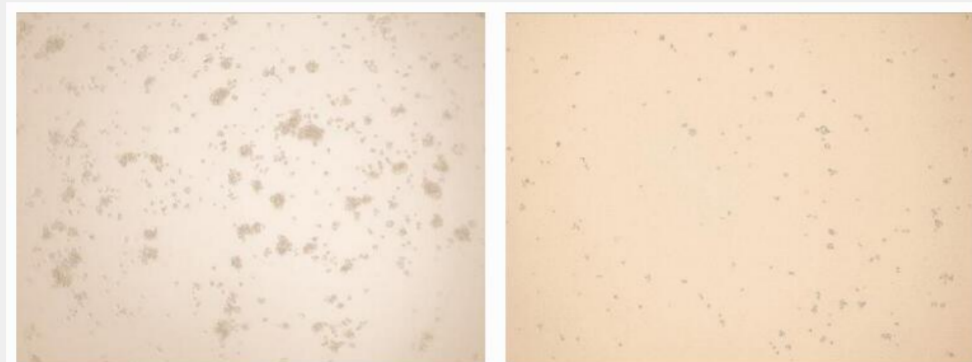

Figure 1. Cell proliferation of Jurkat cells after stimulated with IL11.

(A) Jurkat cells cultured in RPMI-1640, stimulated with 100ng/mL IL11 for 72h;
(B) Unstimulated Jurkat cells cultured in RPMI-1640 for 72h.

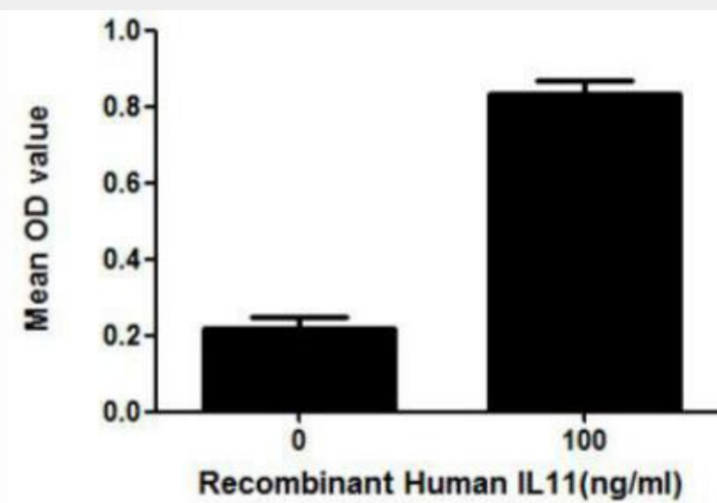

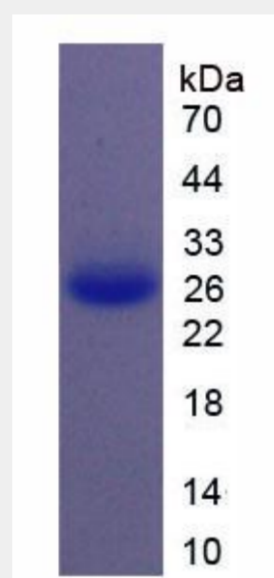

Figure 2. Cell proliferation of Jurkat cells after stimulated with IL11.
