

Active Plasminogen (Plg)

Catalog No: tcup9201

Available Sizes

Size: 10ug

Size: 50ug

Size: 200ug

Specifications

Application:

Cell culture; Activity Assays.

Species:

Rattus norvegicus (Rat)

Source:

E. coli

Purity / Grade:

> 95%

Amino Acids:

Glu191~Arg433

SwissProt:

Q01177

Predicted Molecular Weight:

31.2kDa

Observed Molecular Weight:

38kDa

Tags:

N-terminal His Tag

Product Description

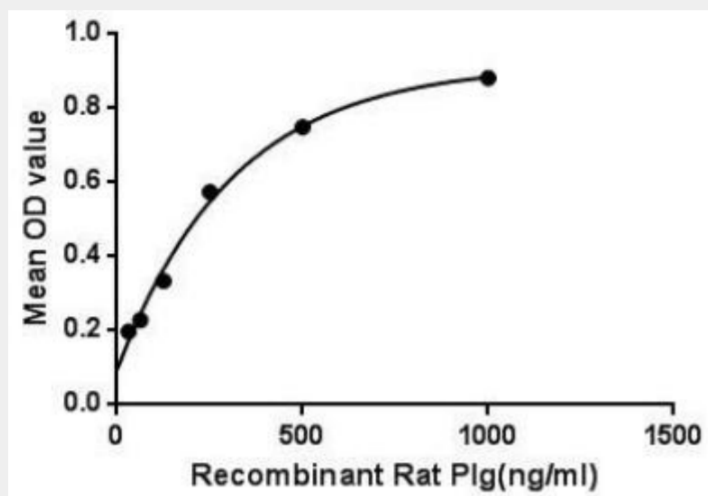

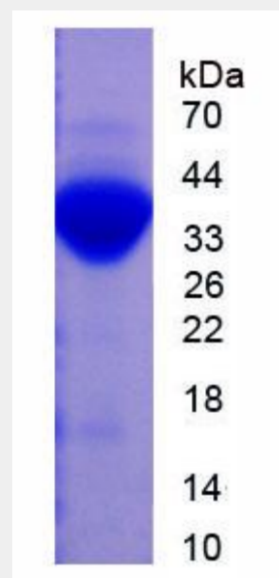

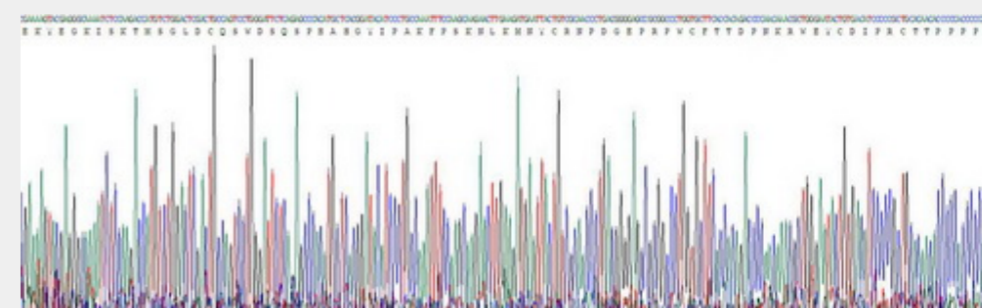

Figure 1. The binding activity of Plg with ACTb.
