

Active Regenerating Islet Derived Protein 3 Beta (REG3b)

Catalog No: **tcup9232**

Available Sizes

Size: 10ug

Size: 50ug

Size: 200ug

Specifications

Application:

Cell culture; Activity Assays.

Species:

Mus musculus (Mouse)

Source:

E. coli

Purity / Grade:

> 97%

Amino Acids:

Glu27~Gly175

SwissProt:

P35230

Predicted Molecular Weight:

20.4kDa

Observed Molecular Weight:

17kDa

Tags:

N-terminal His Tag

Product Description

-

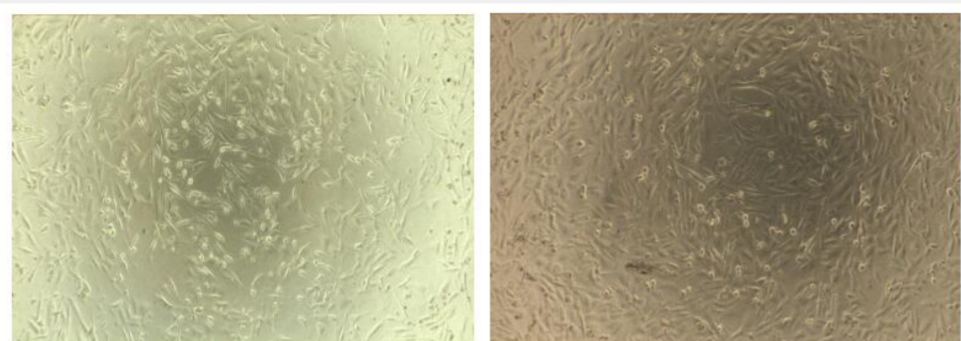

Figure 1. Cell proliferation of SK-N-SH cells after stimulated with REG3b.

(A) Unstimulated SK-N-SH cells cultured in serum-free DMEM for 72h.

(B) SK-N-SH cells cultured in DMEM, stimulated with 10ng/mL REG3b 72h;

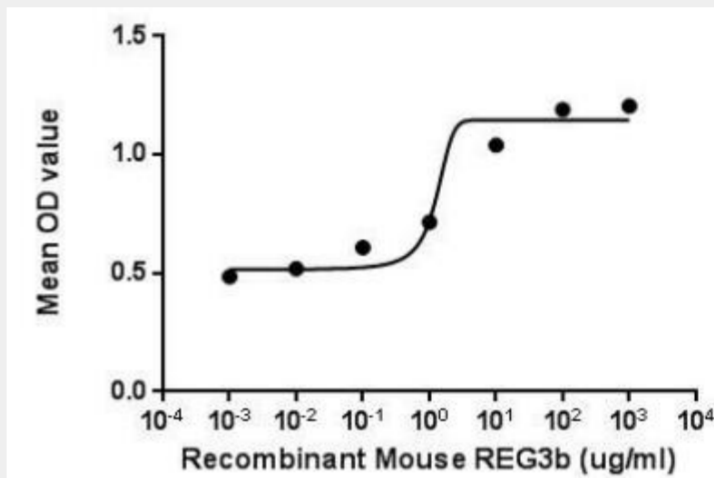

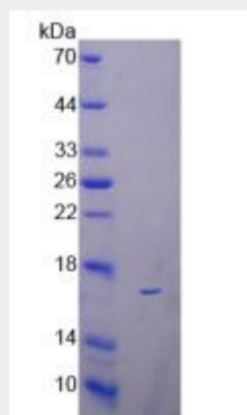

Figure 2. The dose-effect curve of REG3b on SK-N-SH cell.
