

Thymus factor X

Catalog No: tcsc0012208

Available Sizes

Size: 1mg

Size: 5mg

Specifications

CAS No:
78310-77-7

Formula:
N/A

Pathway:
Others

Target:
Others

Purity / Grade:
>98%

Solubility:
H2O

Alternative Names:
TFX-Jelfa

Observed Molecular Weight:
1000

Product Description

Thymus factor X is a biologically active polypeptide which can be used as a natural stimulator of lymphocyte function.

In Vivo:

The percentage of necrotic lymphocytes in the spleen in Group I (infected with *T. spiralis* and treated with Thymus factor X (TFX)) is significantly lower than in the control group on day 7, and approximately the same as in the control group for the rest of the experiment. The percentage of necrotic lymphocytes in muscle tissue in Group I is approximately the same as in the control group on day 7, significantly lower on days 14 and 21 (p[1].
