

MK-6913

Catalog No: tcsc0018478

Available Sizes

Size: 1mg

Size: 5mg

Size: 10mg

Specifications

CAS No:

1398510-92-3

Formula:

$C_{25}H_{27}N_3O_2$

Pathway:

Others

Target:

Estrogen Receptor/ERR

Purity / Grade:

>98%

Solubility:

10 mM in DMSO

Alternative Names:

Tetrahydrofluoroene 52

Observed Molecular Weight:

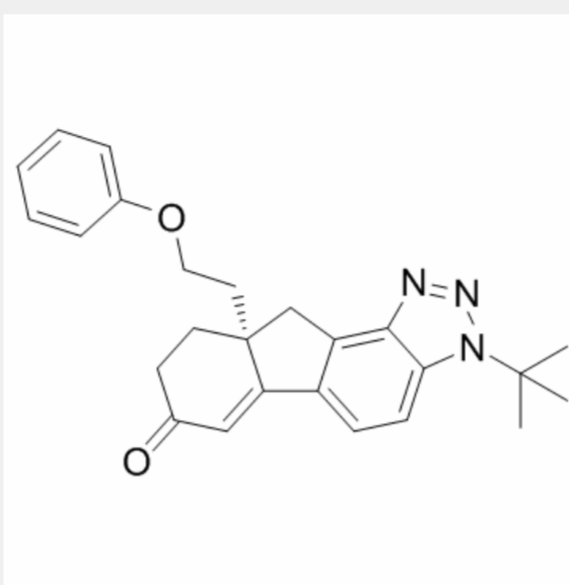

401.5

Product Description

Tetrahydrofluorene 52 is a potent and selective **estrogen receptor β** agonist.

IC50 & Target: Estrogen receptor β [1]

In Vitro: Tetrahydrofluorene 52 (Compound 52), a highly substituted tetrahydrofluorene derivative, is a potent and selective estrogen receptor β agonist.

All products are for RESEARCH USE ONLY. Not for diagnostic & therapeutic purposes!
