

CP 375

Catalog No: **tcsc0018483**

Available Sizes

Size: 1mg

Size: 5mg

Size: 10mg

Specifications

CAS No:

752186-89-3

Formula:

$C_{11}H_{17}NO_3$

Pathway:

Others

Target:

Others

Purity / Grade:

>98%

Solubility:

10 mM in DMSO

Observed Molecular Weight:

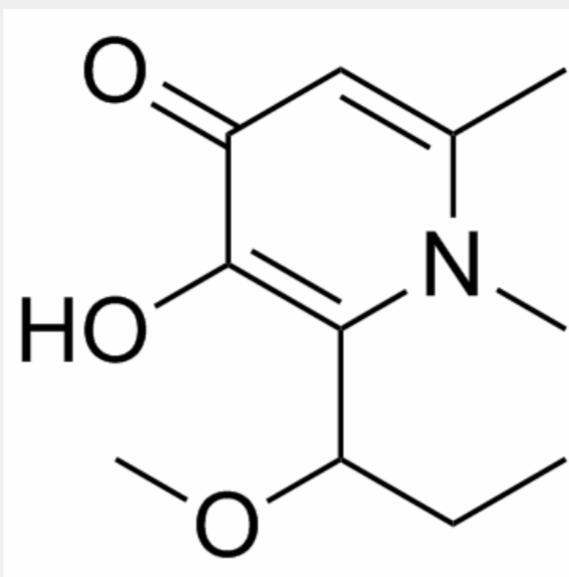

211.26

Product Description

CP 375 is a Fe³⁺ chelating agent, with a log K₁ value of 14.50.

In Vitro: CP 375 is a Fe³⁺ chelating agent, with a log K₁ value of 14.50, with the absolute deviation between the predicted and

experimental values of 0.12 (14.62 vs. 14.50)^[1].
