

d-Atabrine dihydrochloride

Catalog No: tcsc0040942

Available Sizes

Size: 10mg

Specifications

CAS No:

56100-41-5

Formula:

$C_{23}H_{32}Cl_3N_3O$

Pathway:

Anti-infection

Target:

Bacterial

Purity / Grade:

>98%

Solubility:

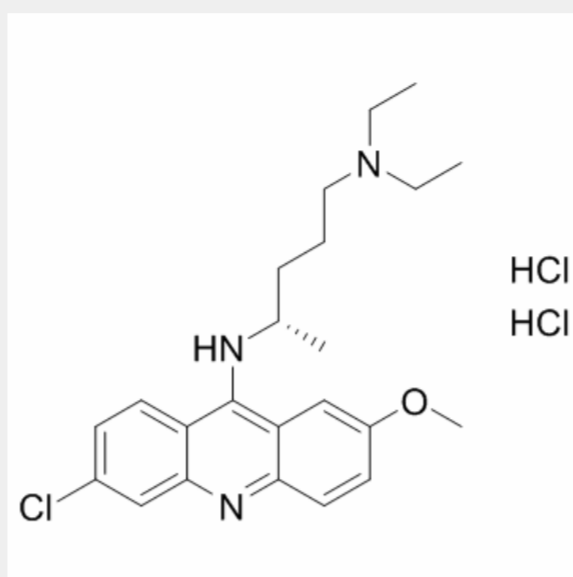

DMSO : 16.67 mg/mL (35.25 mM; Need ultrasonic)

Observed Molecular Weight:

472.88

Product Description

d-Atabrine dihydrochloride is an active enantiomer of quinacrine which displays antiprion activity.

All products are for RESEARCH USE ONLY. Not for diagnostic & therapeutic purposes!
