

Toll-like receptor modulator

Catalog No: tcsc0290

Available Sizes

Size: 5mg

Size: 10mg

Size: 50mg

Specifications

CAS No:

926927-42-6

Formula:

$C_{15}H_{13}F_5N_2O_2$

Pathway:

Immunology/Inflammation

Target:

Toll-like Receptor (TLR)

Purity / Grade:

>98%

Solubility:

10 mM in DMSO

Alternative Names:

Ethyl 2-amino-8-(perfluoroethyl)-3H-benzo[b]azepine-4-carboxylate

Observed Molecular Weight:

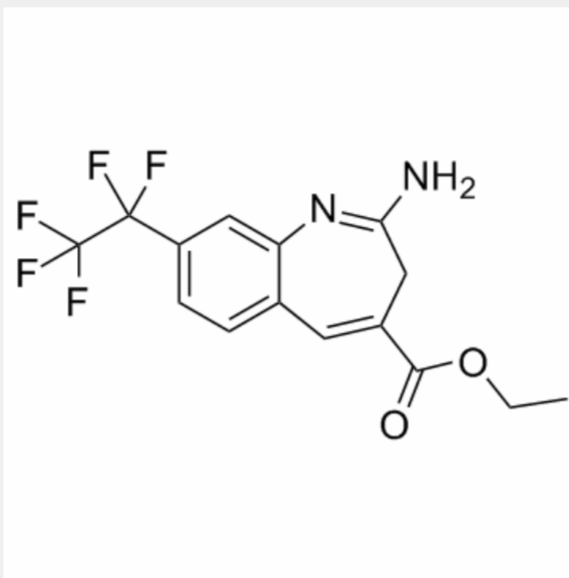

348.27

Product Description

Toll-like receptor modulator is a modulator of **TLR7/8**, which modulates immune function.

IC50 & Target: TLR7/8^[1]

In Vitro: Toll-like receptor modulator (Compound 7) is a modulator of **TLR7/8**, which modulates immune function^[1].
