

Sitaxsentan

Catalog No: tcsc0402

Available Sizes

Size: 10mg

Size: 50mg

Specifications

CAS No:

184036-34-8

Formula:

$C_{18}H_{15}ClN_2O_6S_2$

Pathway:

GPCR/G Protein

Target:

Endothelin Receptor

Purity / Grade:

>98%

Solubility:

10 mM in DMSO

Alternative Names:

IPI 1040;TBC-11251

Observed Molecular Weight:

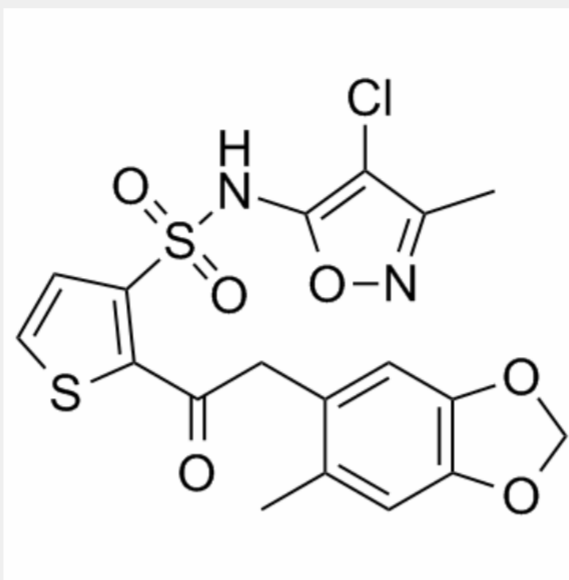

454.9

Product Description

Sitaxsentan (IPI 1040; TBC 11251) is a selective endothelin A (ETA) receptor antagonist. Antihypertensive. Sitaxsentan is used in treatment of chronic heart failure.

IC50 value:

Target: ETA receptor
