

Collagen proline hydroxylase inhibitor

Catalog No: tcsc0622

Available Sizes

Size: 5mg

Specifications

CAS No:

223666-07-7

Formula:

$C_{18}H_{18}N_4O_4$

Pathway:

Others

Target:

Others

Purity / Grade:

>98%

Solubility:

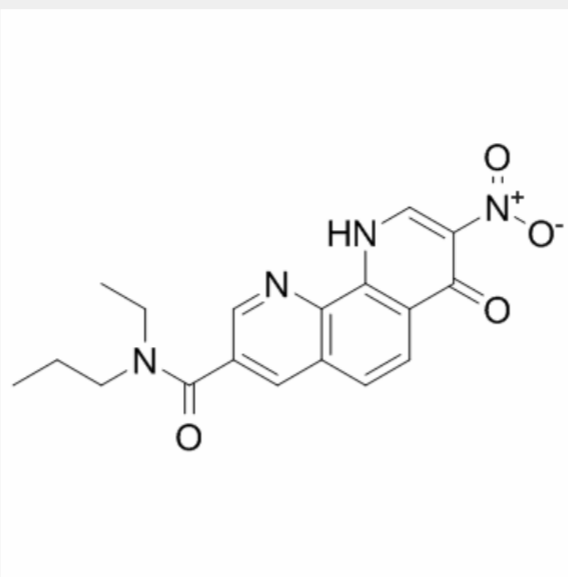

DMSO : 13.15 mg/mL (37.11 mM; Need ultrasonic and warming)

Observed Molecular Weight:

354.36

Product Description

Collagen proline hydroxylase inhibitor is a collagen proline hydroxylase inhibitor; useful for antifibroproliferative agents.

All products are for RESEARCH USE ONLY. Not for diagnostic & therapeutic purposes!
