

Rocuronium

Catalog No: tcsc0733

Available Sizes

Size: 10mg

Size: 50mg

Specifications

CAS No:

143558-00-3

Formula:

$C_{32}H_{53}N_2O_4$

Pathway:

Others

Target:

Others

Purity / Grade:

>98%

Solubility:

10 mM in DMSO

Alternative Names:

Org-9426

Observed Molecular Weight:

529.77

Product Description

Rocuronium (Org-9426) is an aminosteroid non-depolarizing neuromuscular blocker or muscle relaxant used in modern anaesthesia.
