

# HhAntag

**Catalog No: tcsc1233**

## Available Sizes

---

**Size:** 5mg

**Size:** 10mg

**Size:** 50mg

**Size:** 100mg

## Specifications

---

**CAS No:**

496794-70-8

**Formula:**

$C_{24}H_{23}ClN_4O_3$

**Pathway:**

Stem Cell/Wnt

**Target:**

Gli

**Purity / Grade:**

>98%

**Solubility:**

10 mM in DMSO

**Observed Molecular Weight:**

450.92

## Product Description

HhAntag is a small molecule inhibitor of GLI1-mediated transcription, an essential down-stream element of the Hedgehog (Hh)

pathway; antitumor agent.

IC50 value:

Target: Gli
