

Omadacycline (mesylate)

Catalog No: tcsc1492

Available Sizes

Size: 5mg

Size: 10mg

Size: 50mg

Specifications

CAS No:

1196800-40-4

Formula:

$C_{30}H_{44}N_4O_{10}S$

Pathway:

Anti-infection

Target:

Bacterial

Purity / Grade:

>98%

Solubility:

10 mM in DMSO

Alternative Names:

PTK 0796 mesylate; Amadacycline mesylate

Observed Molecular Weight:

652.76

Product Description

Omadacycline mesylate is a new tetracycline antibiotic in the pipeline, which can inhibit the 30s subunit of bacterial ribosome.

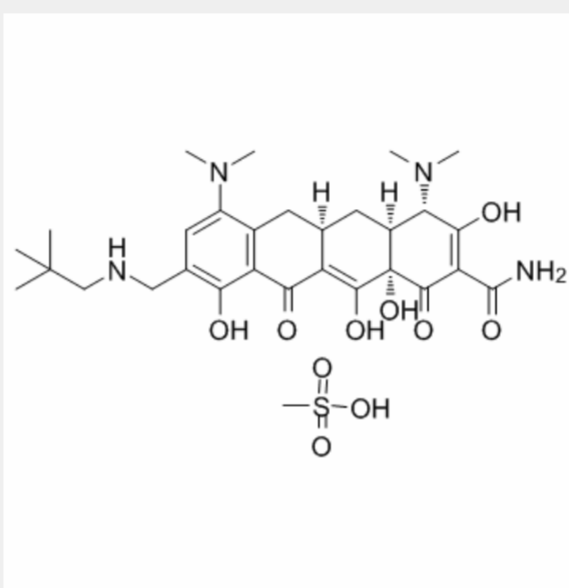

IC50 Value: N/A

Target: Antibacterial

in vitro:

in vivo:

Clinical trial: Phase III Study to Compare the Safety and Efficacy of PTK-0796 in Patients With Complicated Skin and Skin Structure Infection (CSSSI).
