

Chloroxine

Catalog No: tcsc2324

Available Sizes

Size: 100mg

Specifications

CAS No:

773-76-2

Formula:

$\text{C}_9\text{H}_5\text{Cl}_2\text{NO}$

Pathway:

Anti-infection

Target:

Bacterial

Purity / Grade:

>98%

Solubility:

H₂O :

Observed Molecular Weight:

214.05

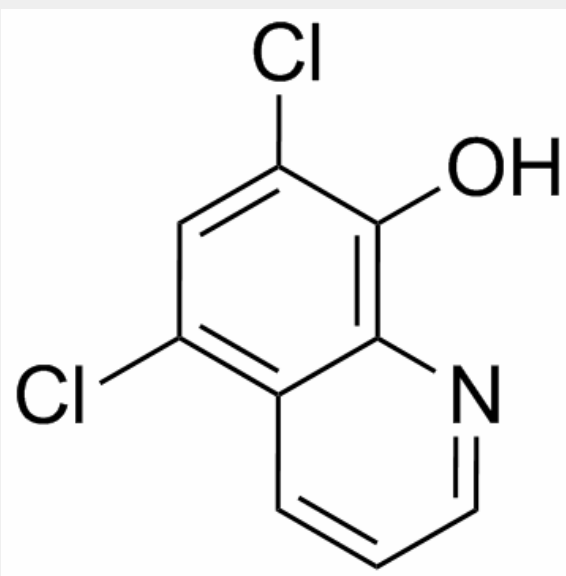

Product Description

Chloroxine is a synthetic antibacterial compound that is effective in the treatment of dandruff and seborrheic dermatitis when incorporated in a shampoo.

Target: Antibacterial

Chloroxine is an antibacterial drug. Oral formulations are used in infectious diarrhea, disorders of the intestinal microflora (e.g. after antibiotic treatment), giardiasis, inflammatory bowel disease. It is also useful for dandruff and seborrheic dermatitis, as used in shampoos and dermal creams like. Chloroxine has bacteriostatic, fungistatic and antiprotozoal properties. It is effective against

Streptococci, Staphylococci, Candida, Candida albicans, Shigella and Trichomonads.
