

# Oxibendazole

Catalog No: tcsc2333

## Available Sizes

**Size:** 50mg

**Size:** 100mg

## Specifications

**CAS No:**

20559-55-1

**Formula:**

$C_{12}H_{15}N_3O_3$

**Pathway:**

Anti-infection

**Target:**

Parasite

**Purity / Grade:**

>98%

**Solubility:**

DMSO : 3.84 mg/mL (15.40 mM; Need ultrasonic and warming)

**Observed Molecular Weight:**

249.27

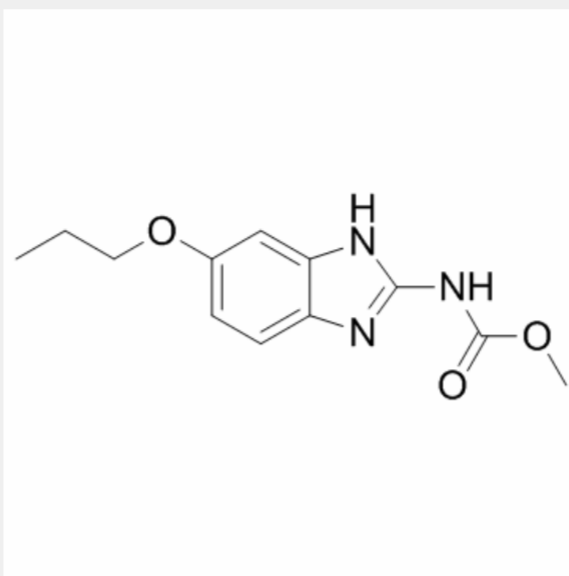

## Product Description

Oxibendazole is a broad-spectrum anthelmintic

Target: Antiparasitic

Oxibendazole is a benzimidazole drug that is used to protect against roundworms, strongyles, threadworms, pinworms and lungworm infestations in horses and some domestic pets. It is usually white to yellowish in appearance, and may take the form of a

powder or a tablet. From Wikipedia.
