

Diclazuril

Catalog No: tcsc2411

Available Sizes

Size: 100mg

Specifications

CAS No:

101831-37-2

Formula:

$C_{17}H_9Cl_3N_4O_2$

Pathway:

Anti-infection

Target:

Parasite

Purity / Grade:

>98%

Solubility:

DMSO : 17 mg/mL (41.70 mM; Need ultrasonic and warming)

Alternative Names:

R-64433

Observed Molecular Weight:

407.64

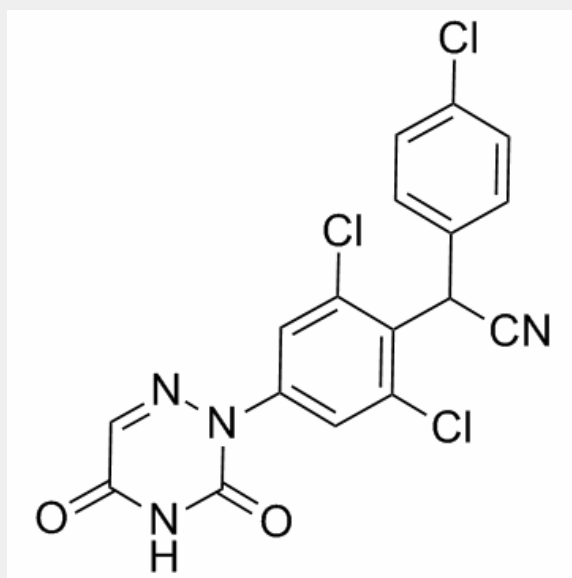

Product Description

Diclazuril is an anti-coccidial drug.

Target: Antiparasitic

Diclazuril is a coccidiostat, the lambs treated with diclazuril showed an intense, persistent oocyst excretion, with average levels of

97.54 opg, considerably higher than those recorded in the animals treated with toltrazuril (p
