

Naftopidil

Catalog No: tcsc2477

Available Sizes

Size: 5g

Size: 10g

Specifications

CAS No:

57149-07-2

Formula:

$C_{24}H_{28}N_2O_3$

Pathway:

GPCR/G Protein

Target:

Adrenergic Receptor

Purity / Grade:

>98%

Solubility:

H₂O :

Alternative Names:

KT-611;BM-15275

Observed Molecular Weight:

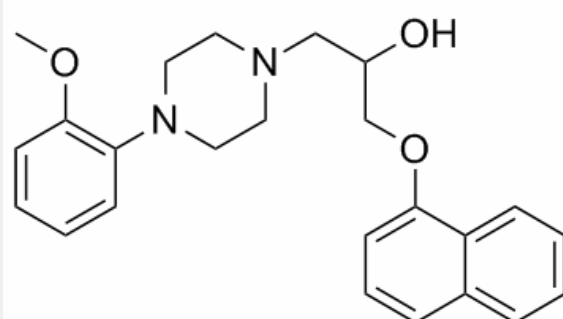

392.49

Product Description

Naftopidil (Flivas), a selective α 1-adrenergic receptor antagonist or alpha blocker, is an antihypertensive drug.

Target: α 1-Adrenergic Receptor

Naftopidil significantly improved the overall international prostatic symptom score ; from 19.2 ± 7.9 to 11.7 ± 5.8 in the M group and from 19.4 ± 6.4 to 12.3 ± 6.8 in the E group (p
