

Cysteine Protease inhibitor (hydrochloride)

Catalog No: tcsc2850

Available Sizes

Size: 5mg

Size: 10mg

Size: 50mg

Size: 100mg

Specifications

Formula:

$C_{18}H_{15}ClN_4O$

Pathway:

Metabolic Enzyme/Protease

Target:

Cathepsin

Purity / Grade:

>98%

Solubility:

10 mM in DMSO

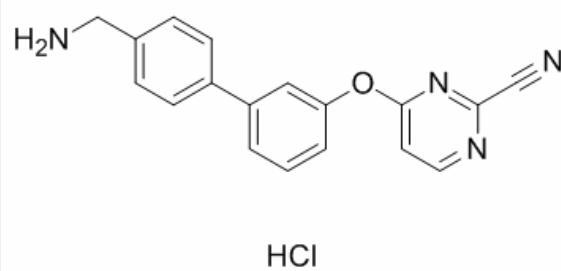

Observed Molecular Weight:

338.79

Product Description

Cysteine Protease inhibitor hydrochloride is an inhibitor of **cysteine protease**.

IC50 & Target: Cysteine Protease

All products are for RESEARCH USE ONLY. Not for diagnostic & therapeutic purposes!
