

Carteolol hydrochloride

Catalog No: tcsc2955

Available Sizes

Size: 50mg

Size: 100mg

Specifications

CAS No:

51781-21-6

Formula:

$C_{16}H_{25}ClN_2O_3$

Pathway:

GPCR/G Protein

Target:

Adrenergic Receptor

Purity / Grade:

>98%

Solubility:

DMSO : 13.33 mg/mL (40.54 mM; Need ultrasonic and warming)

Alternative Names:

OPC-1085 hydrochloride

Observed Molecular Weight:

328.83
