

Micheliolide

Catalog No: tcsc3011

Available Sizes

Size: 5mg

Size: 10mg

Specifications

CAS No:

68370-47-8

Formula:

$C_{15}H_{20}O_3$

Pathway:

Others

Target:

Others

Purity / Grade:

>98%

Solubility:

10 mM in DMSO

Observed Molecular Weight:

248.32

Product Description

Micheliolide could effectively attenuate the high glucose-stimulated activation of NF- κ B, the degradation of I κ B α , and the expression of MCP-1, TGF- β 1 and FN in rat mesangial cells (MCs).
