

DTE

Catalog No: tcsc3034

Available Sizes

Size: 1g

Size: 5g

Specifications

CAS No:

6892-68-8

Formula:

$C_4H_{10}O_2S_2$

Pathway:

Others

Target:

Others

Purity / Grade:

>98%

Solubility:

H₂O : ≥ 100 mg/mL (648.30 mM)

Alternative Names:

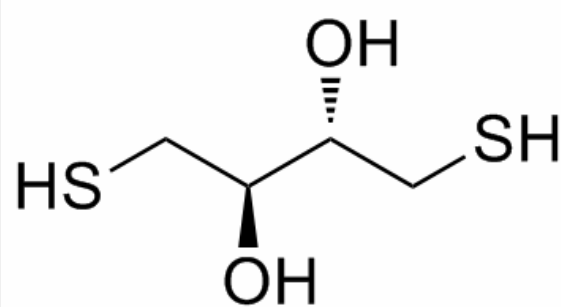

Dithioerythritol; Cleland's reagent

Observed Molecular Weight:

154.25

Product Description

DTE (Dithioerythritol) is a sulfur containing sugar derived from the corresponding 4-carbon monosaccharide erythrose; is an epimer of dithiothreitol (DTT).
