

Capreomycin (sulfate)

Catalog No: tcsc3072

Available Sizes

Size: 1g

Size: 5g

Specifications

CAS No:

1405-37-4

Formula:

$C_{25}H_{46}N_{14}O_{11}S$

Pathway:

Anti-infection

Target:

Bacterial

Purity / Grade:

>98%

Solubility:

H₂O : ≥ 37 mg/mL (49.28 mM)

Observed Molecular Weight:

750.78

Product Description

Capreomycin is a peptide antibiotic, commonly grouped with the aminoglycosides, which is given in combination with other antibiotics for MDR-tuberculosis.

IC₅₀ value:

Target:

[illegible]
