

# 2'-Deoxycytidine (hydrochloride)

Catalog No: tcsc3150

## Available Sizes

Size: 1g

## Specifications

### CAS No:

3992-42-5

### Formula:

$C_9H_{14}ClN_3O_4$

### Pathway:

Others

### Target:

Others

### Purity / Grade:

>98%

### Solubility:

H<sub>2</sub>O : ≥ 41 mg/mL (155.49 mM)

### Alternative Names:

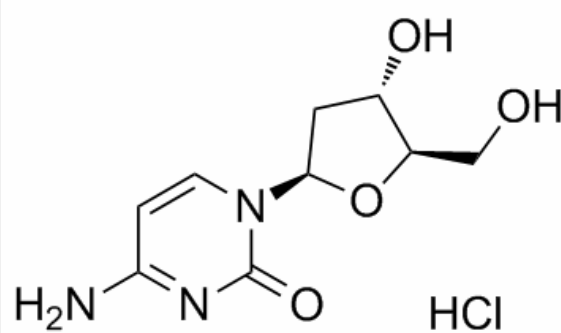

2'-Deoxycytidine monohydrochloride;Deoxycytidine hydrochloride;NSC 83251

### Observed Molecular Weight:

263.68

## Product Description

Deoxyguanosine Hcl(2'-Deoxyguanosine Hcl) is composed of the purine nucleoside guanine linked by its N9 nitrogen to the C1 carbon of deoxyribose.

All products are for RESEARCH USE ONLY. Not for diagnostic & therapeutic purposes!
