

RU-SKI 43

Catalog No: tcsc3228

Available Sizes

Size: 5mg

Size: 10mg

Size: 50mg

Specifications

CAS No:

1043797-53-0

Formula:

$C_{22}H_{30}N_2O_2S$

Pathway:

Stem Cell/Wnt

Target:

Hedgehog

Purity / Grade:

>98%

Solubility:

10 mM in DMSO

Alternative Names:

Hhat Inhibitor

Observed Molecular Weight:

386.55

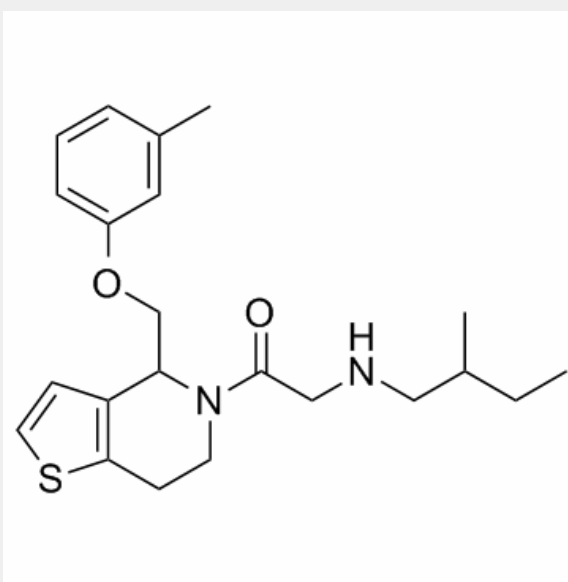

Product Description

RU-SKI 43 is a small molecule inhibitor of Hhat(Hedgehog acyltransferase), the enzyme responsible for the attachment of palmitate onto Shh.

IC50 value:

Target: Hhat inhibitor

RU-SKI 43 reduced pancreatic cancer cell proliferation and Gli-1 activation through Smoothened-independent non-canonical signaling. In addition, RU-SKI 43 treatment inhibited two key proliferative pathways regulated by Akt and mTOR.
