

Ecteinasclidin-Analog-1

Catalog No: tcsc3406

Available Sizes

Size: 5mg

Size: 10mg

Specifications

CAS No:

874758-58-4

Formula:

$C_{31}H_{44}N_2O_9$

Pathway:

Others

Target:

Others

Purity / Grade:

>98%

Solubility:

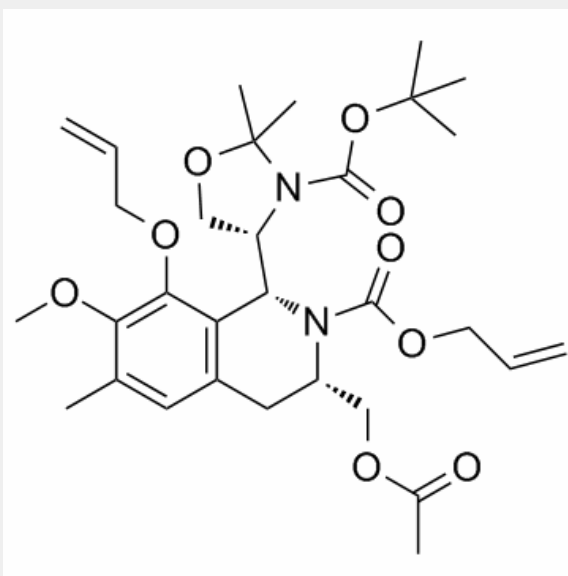

10 mM in DMSO

Observed Molecular Weight:

588.69

Product Description

Ecteinasclidin-Analog-1 is a useful intermediate for chemical sythesis of Ecteinasclidin analogues; Ecteinasclidins is a family of tetrahydroisoquinoline alkaloids with wide range of antitumor and antimicrobial activities.

All products are for RESEARCH USE ONLY. Not for diagnostic & therapeutic purposes!
