

Desacetylcinobufotalin

Catalog No: tcsc3700

Available Sizes

Size: 5mg

Size: 10mg

Specifications

CAS No:

4099-30-3

Formula:

$C_{24}H_{32}O_6$

Pathway:

Apoptosis

Target:

Apoptosis

Purity / Grade:

>98%

Solubility:

10 mM in DMSO

Alternative Names:

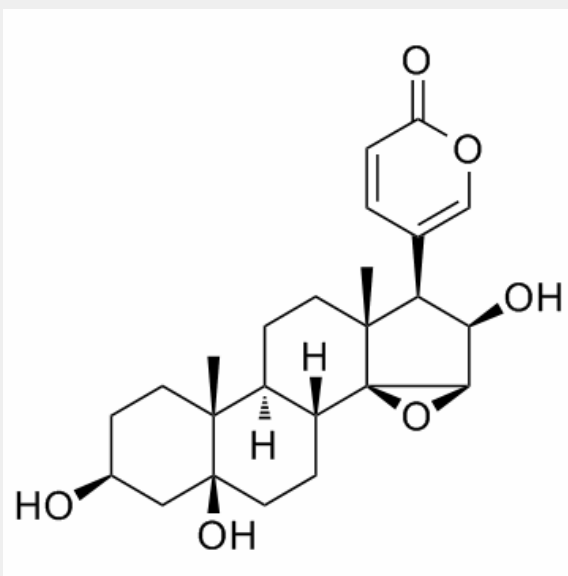

Deacetylcinobufotalin

Observed Molecular Weight:

416.51

Product Description

Desacetylcinobufotalin is a natural compound; apoptosis inducer and shows the marked inhibition effect to HepG2 cells and the IC50 value is 0.0279μmol/ml.

All products are for RESEARCH USE ONLY. Not for diagnostic & therapeutic purposes!
