

Cetirizine (D4 dihydrochloride)

Catalog No: tcsc4002

Available Sizes

Size: 1mg

Size: 5mg

Specifications

Formula:

$C_{21}H_{23}D_4Cl_3N_2O_3$

Pathway:

Immunology/Inflammation;GPCR/G Protein

Target:

Histamine Receptor;Histamine Receptor

Purity / Grade:

>98%

Solubility:

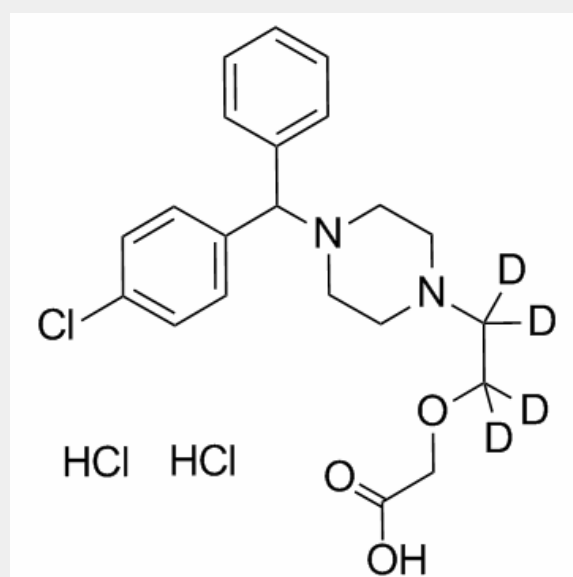

10 mM in DMSO

Observed Molecular Weight:

465.83

Product Description

Cetirizine D4 2Hcl is deuterium labeled Cetirizine, which is a major metabolite of hydroxyzine, and a racemic selective H1 receptor inverse agonist.

All products are for RESEARCH USE ONLY. Not for diagnostic & therapeutic purposes!
