

Mebeverine (D6 Hydrochloride)

Catalog No: tcsc4069

Available Sizes

Size: 1mg

Size: 5mg

Size: 10mg

Specifications

CAS No:

1329647-20-2

Formula:

$C_{25}H_{30}D_6ClNO_5$

Pathway:

GPCR/G Protein

Target:

Adrenergic Receptor

Purity / Grade:

>98%

Solubility:

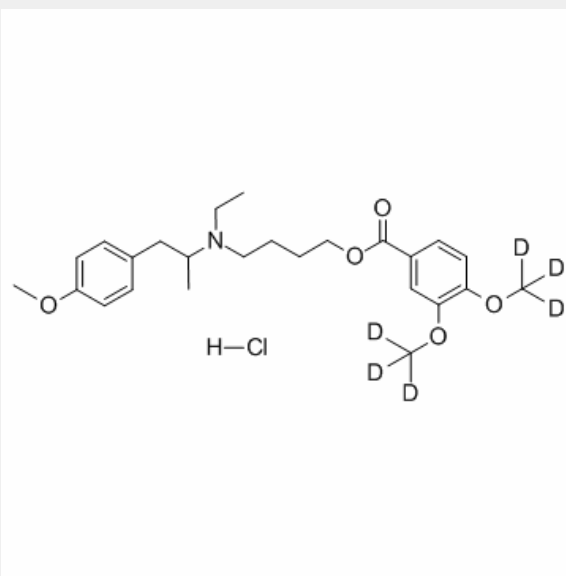

10 mM in DMSO

Observed Molecular Weight:

472.05

Product Description

Mebeverine D6 Hydrochloride is the deuterium labeled Mebeverine, which is an antimuscarinic.

All products are for RESEARCH USE ONLY. Not for diagnostic & therapeutic purposes!
