

Dinoprost (tromethamine salt)

Catalog No: tcsc4233

Available Sizes

Size: 5mg

Size: 10mg

Size: 25mg

Size: 50mg

Size: 100mg

Specifications

CAS No:

38562-01-5

Formula:

$C_{24}H_{45}NO_8$

Pathway:

GPCR/G Protein

Target:

Prostaglandin Receptor

Purity / Grade:

>98%

Solubility:

H₂O : ≥ 4.8 mg/mL (10.09 mM)

Alternative Names:

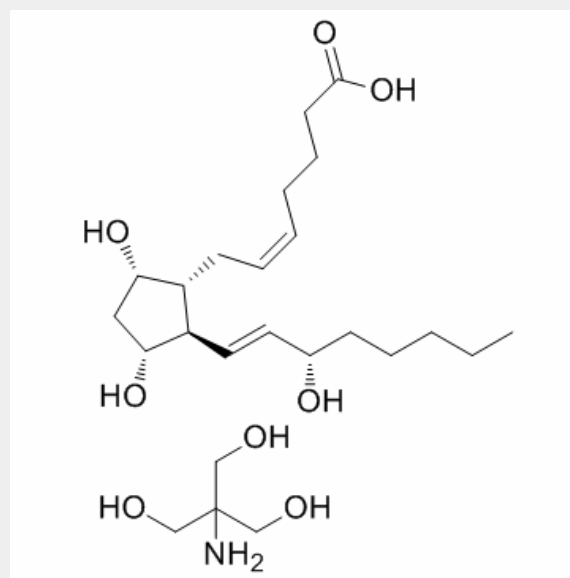

Prostaglandin F2a tromethamine salt;PGF2α THAM;Prostaglandin F2α THAM

Observed Molecular Weight:

475.62

Product Description

Dinoprost(Prostaglandin F2 α) tromethamine salt is a naturally occurring prostaglandin used in medicine to induce labor and as an abortifacient.
