

Heptamethine cyanine dye-1

Catalog No: tcsc6163

Available Sizes

Size: 5mg

Size: 10mg

Size: 25mg

Size: 50mg

Size: 100mg

Specifications

CAS No:

162411-29-2

Formula:

$C_{42}H_{44}ClIN_2$

Pathway:

Others

Target:

Others

Purity / Grade:

>98%

Solubility:

10 mM in DMSO

Alternative Names:

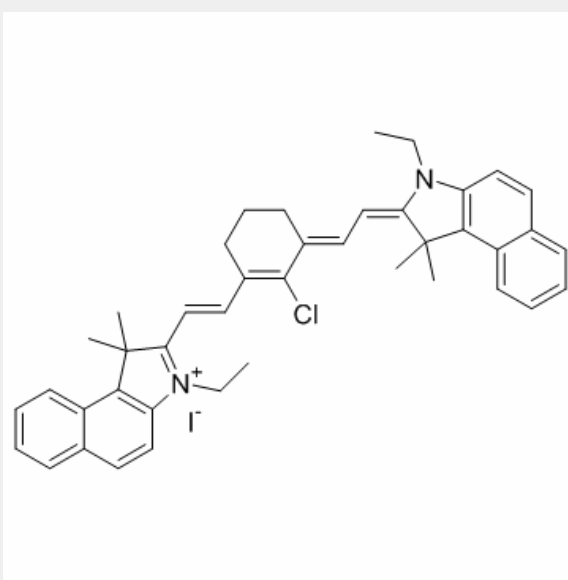

ADS 815EI

Observed Molecular Weight:

739.17

Product Description

Heptamethine cyanine dye-1 is a near-infrared cyanine dye for fluorescence imaging in biological systems.

All products are for RESEARCH USE ONLY. Not for diagnostic & therapeutic purposes!
