

Bak BH3

Catalog No: tcsc7049

Available Sizes

Size: 1mg

Size: 5mg

Size: 10mg

Specifications

Formula:

$C_{72}H_{125}N_{25}O_{24}$

Pathway:

Apoptosis

Target:

Bcl-2 Family

Purity / Grade:

>98%

Solubility:

10 mM in DMSO

Observed Molecular Weight:

1724.9

Product Description

Bak BH3 is derived from the BH3 domain of Bak, can antagonize the function of **Bcl-xL** in cells.

In Vitro: Bak BH3 peptide antagonize the protective effects of microinjected Bcl-xL in α -Fas-treated HeLa cells, whereas a mutant Bak BH3 peptide that no longer binds Bcl-xL is inactive^[1].
