

Trecadrine

Catalog No: tcsc7288

Available Sizes

Size: 1mg

Size: 5mg

Size: 10mg

Size: 20mg

Specifications

CAS No:

90845-56-0

Formula:

$C_{27}H_{29}NO$

Pathway:

GPCR/G Protein

Target:

Adrenergic Receptor

Purity / Grade:

>98%

Solubility:

DMSO

Alternative Names:

Trecadrinum

Observed Molecular Weight:

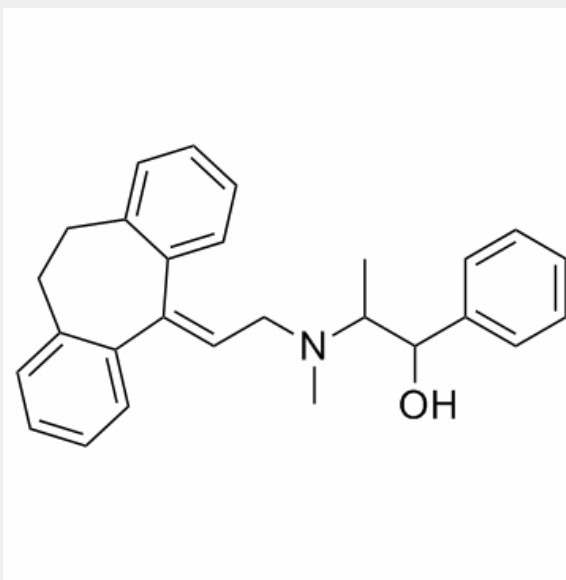

383.53

Product Description

Trecadrine is a **β3-adrenergic** agonist.

IC50 & Target: β3-adrenergic^[1]

In Vivo: After 35 days of Trecadrine administration to the basal group in rats, galactose uptake by the intestinal tissue decreases significantly (by 19%, P[1].
