

Emeramide

Catalog No: tcsc8157

Available Sizes

Size: 100mg

Size: 500mg

Specifications

CAS No:

351994-94-0

Formula:

$C_{12}H_{16}N_2O_2S_2$

Pathway:

Others

Target:

Others

Purity / Grade:

>98%

Solubility:

DMSO : 100 mg/mL (351.62 mM; Need ultrasonic and warming); H₂O :

Alternative Names:

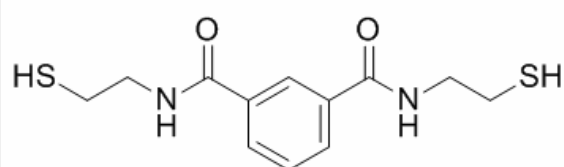

BDTH2

Observed Molecular Weight:

284.4

Product Description

Emeramide is a novel lipid-soluble, thiol-redox antioxidant and heavy metal chelator.

All products are for RESEARCH USE ONLY. Not for diagnostic & therapeutic purposes!
