

Rabbit Anti-Goat IgG (H+L)(peroxidase/HRP conjugated)

Catalog No: tcea302985

Available Sizes

Size: 60μl

Size: 120μl

Size: 200μl

Specifications

Species Reactivity:

Goat

Immunogen / Amino acids:

Goat IgG

Conjugation:

HRP

Clonality:

Polyclonal

Storage Buffer:

0.01M PBS with 50% glycerol, PH7.4

Concentration:

0.5 mg/mL

Recommended Dilution:

WB 1:8000-15000(Enhanced Chemiluminescent)

WB 1:1000-5000 (DAB Detection)

Direct ELISA 1:4000-8000 (TMB Detection)

Immunohistochemistry 1:1000-4000 (DAB detection)

Source:

Rabbit

Tested Application:

WB,IHC,ELISA

Storage Instruction:

Store at -20°C. Avoid repeated freeze / thaw cycles.

Alternative Names:

Rabbit Anti-Goat IgG

SwissProt:

P51693

Purification:

Affinity purification
