

Rabbit anti-Goat IgG Fab Antibody; HRP conjugated

Catalog No: tccua64829

Available Sizes
Size: 500ug
Specifications
Application: ELISA
Species Reactivity: Goat
Host Species: Rabbit
Immunogen / Amino acids: Goat IgG Fab fragment
Conjugation: HRP
Isotype: IgG
Form: Liquid
Storage Buffer: Preservative: 0.03% Proclin 300 Constituents: 50% Glycerol, 0.01M PBS, PH 7.4
Storage Instruction: Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.

Product Description

The fragment antigen-binding (Fab fragment) is a region on an antibody that binds to antigens. It is composed of one constant and one variable domain of each of the heavy and the light chain. These domains shape the paratope — the antigen-binding site — at the amino terminal end of the monomer. The two variable domains bind the epitope on their specific antigens.
