

# Human C-type lectin domain family 4 member E (CLEC4E) ELISA Kit

Catalog No: tcbe120390

## Available Sizes

---

**Size:** 96Tests

---

## Specifications

---

**Application:**

This Human C-type lectin domain family 4 member E (CLEC4E) ELISA kit is intended for laboratory research use only and not for use in diagnostic or therapeutic procedures. The stop solution changes color from blue to yellow and the intensity of the color i

---

**Conjugation:**

Biotin

---

**Sample Type:**

Serum, plasma and cell culture supernates

---

**Assay Type:**

Sandwich ELISA

---

**Sensitivity:**

33pg/mL

---

**Detection Range:**

78-5000pg/mL

---

**Assay Time:**

4hours

---

**Detection Method:**

Colorimetric

---

**Storage Instruction:**

Store unopened kit at 2-8 °C for 1 week. If more than one week, please keep the components of the kit according to the instructions. Do not use past kit expiration date.

---

## Notes

1. This kit contains materials with small quantities of sodium azide. Sodium azide reacts with lead and copper plumbing to form explosive metal azides. Upon disposal, flush drains with a large volume of water to prevent azide accumulation. Avoid ingestion and contact with eyes, skin or mucous membranes. In the case of contact, rinse the affected area with plenty of water. Observe all federal, state and local regulations for disposal. 2. All blood components and biological materials should be handled as potentially hazardous. Follow universal precautions as established by the Centers for Disease Control and Prevention and by the Occupational Safety and Health Administration when handling and disposing of infectious agents.

## Product Description

The ELISA (Enzyme-Linked Immunosorbent Assay) kit is an in vitro enzyme-linked immunosorbent assay for the quantitative measurement of samples in serum, plasma, cell Lysis and other biological fluids.

All products are for RESEARCH USE ONLY. Not for diagnostic & therapeutic purposes!
