

# Human IgA subclasses standard Serum

Catalog No: tcaa1729

## Available Sizes

---

**Size:** 0.25ml

---

## Specifications

---

**Research Area:**

Immunology

---

**Species Reactivity:**

Human

---

**Storage Instruction:**

This product is shipped at ambient temperature. After arrival store, divided into small aliquots, frozen at or below -20°C. Working dilutions may be prepared by adding the required amount of phosphate buffered saline (PBS) containing 0.05% Tween and 1% (w/v) bovine serum albumin, should not be refrozen and preferably used within 24 hours. Repeated thawing and freezing should be avoided. If a slight precipitation occurs upon storage, this should be removed by centrifugation and will not affect the performance of the product. At +4°C--1 year. At or below -20°C-- 3-5 years.
